- Certification Modules

≠□□□□□□ □□□□□ □□□□ ⌟ □□□□□□□□□

Somewhere between the idea and the launch, the product vision somewhere spread in the organisation.

Teams

Project manager

Marketing

Product manager

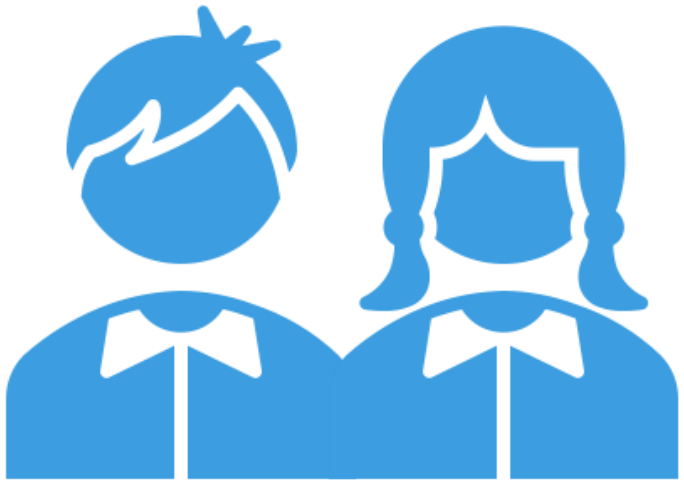
≠□□□□□□ □□□□□ □□□□ ⌟ □□□□□□□□□

- The Product Owner leads the development effort to create a product that generates the desired benefits.
- Manage the product Lifecyle.
- Visionary who can envision the final product and communicate the vision

≠□□□□□□ □□□□□ □□□□ ⌟ □□□□□□□□□

Voice of the customer

Must have enough authority



Must be available and qualified

It is a full-time job

≠□□□□□□ □□□□□ □□□□ □ □□□□□ □□□ □□□□□□□□□□□□□□□□□□

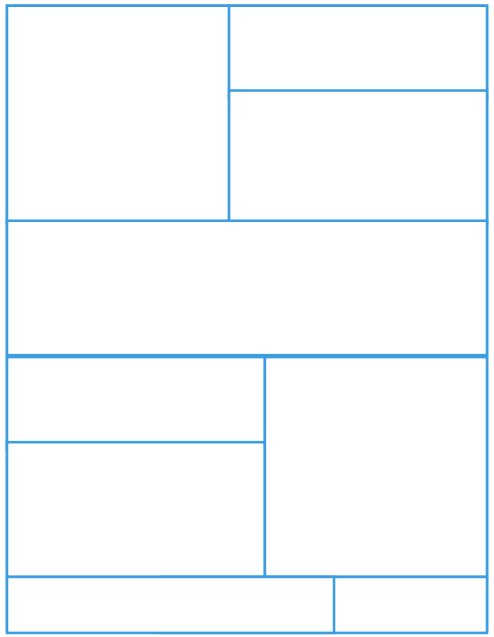
The Product Owner is responsible for **maximizing the value of the product** and the work of the Development Team.

- The Product Owner is the sole person responsible for managing the Product Backlog. Product Backlog management includes:
  - Clearly expressing Product Backlog items;
  - Ordering the items
  - Optimizing the value of the work
  - Ensuring that the Product Backlog is visible, transparent, and clear
  - Ensuring the Team understands items

[illegible]

Product backlog

- Ordered list of requirements
- Product Backlog items or PBIs
- Highest PBI: Priority



Considerations

- Risk
- Dependencies
- Deadline
- Business value

- YES ! Definitely yes !
- You will need to develop some skills and competences:
  - Business vision
  - Communication (written and spoken) – don't be shy ☺
  - Organisation
  - Priority definition
  - To lead without much authority
  - To bring everybody onboard !
  - Negotiation
  - Emotional intelligence
  - Agile & Scrum (practices aren't the key, mindset is)

EXIN Agile Scrum

Overview

Modules

EXIN Agile Scrum Foundation

Tests a candidate's knowledge and understanding of the terminology and the core principles of Agile and Scrum.

EXIN Agile Scrum Master

Tests a candidate's capability and competences in their Agile Scrum Master role. This is an advanced level exam.

EXIN Agile Scrum Product Owner

Tests a candidate's capability and competences in their Agile Scrum PO role. This is an advanced level exam.

EXIN Agile Scrum Product Owner Bridge

Tests a candidate's capability and competences in their Agile Scrum PO role. This is an advanced level exam meant for Agile Scrum Master certified professionals.

EXIN Agile Coach Expert

Tests a candidate's maturity in their Agile Coach competences. This is an expert level exam.

Summary

- The scheme has been designed specifically to blend Agile & Scrum
- BCS, EXIN and TSG Training are internationally recognised for delivery excellence
- There is a defined career route
- The scheme has been incorporated into TSG Training's Long Term Test Engineer development programme
- Essentially, this is a well thought out scheme through which many thousands have graduated as people who make a positive difference to their organisations
